### **Performance Metal Fabricators Expands Capacity**

Hanover Park, IL, July 15, 2009—Performance Metal Fabricators, Inc. (PMF), part of TSI Group, Inc., announced the acquisition of four Mori Seiki MV-40M vertical machining centers and two Mori Seiki MH-40 horizontal machining centers. This acquisition enhances PMF's current capabilities of sheet metal fabrication and value added assembly.

Mori Seiki machining centers machine parts based on computer-aided-design software. They combine revolutionary technology with standard-setting quality, and increase efficiency and productivity to achieve the lowest cost per part.

PMF acquired these machines in direct response to customers' requests for additional machining capacity at competitive prices. Mike Glueckert, president of PMF, says, "We are pleased to deliver cost effective high quality machined parts to our customer base. These new machining centers will better align PMF with our customers' changing requirements in terms of capability and capacity."

#### **About Performance Metal Fabricators:**

Performance Metal Fabricators, Inc. serves commercial and aerospace markets with just-in-time delivery of custom sheet metal assemblies, enclosures and components. We have the capability to manufacture and warehouse your parts for immediate on-demand delivery whenever, wherever you need them. Visit us at [www.performancemetal.com](http://www.performancemetal.com)
