

FOR IMMEDIATE RELEASE

TSI Appoints Brian Dietz President of ADB Industries

March 1, 2008, North Hampton, NH—TSI Group, Inc. is pleased to announce the appointment of Brian Dietz as President of ADB Industries. ADB manufactures custom complex mechanical components including chassis, enclosures and heat exchangers that require design and engineering, precision CNC machining, sheet metal fabrication, mechanical assembly, aluminum dip brazing, welding, adhesive bonding, finishing, inspection and testing.

“Brian is one of the leading technical authorities in our industry and has a proven track record of responsible and dedicated leadership,” said Greg Tucker, CEO of TSI Group, Inc. “Brian was a natural choice to take over as president of ADB.”

Prior to becoming president of ADB, Brian held the role of vice president of engineering for ADB where he managed the engineering department and functioned as the chief technology officer. Brian focused on researching industry trends and needs, and then applied his findings on product development. Before Brian joined ADB he was the vice president of operations for Aitech Space Systems, Inc. where he assisted in forming the U.S. division of the company. Brian has held positions with companies such as Litton Data Systems, Vista Controls Corp. and Moog Inc. in the Schaeffer Magnetics Division.

Brian earned his bachelor’s degree in engineering from California State University.

TSI Group, Inc. (www.tsigroupinc.com) is a world-class supplier of high quality contract manufactured and custom engineered electronic assemblies and thermal management products, enclosures and interconnect solutions for military, commercial and security applications.
