

FOR IMMEDIATE RELEASE

### **Brazonics Inc. Is Awarded Coveted Nadcap Certification**

NORTH HAMPTON, N.H., September 17, 2007 – Nadcap certification in chemical processing has been conferred upon Brazonics, Inc., a TSI Group, Inc. company. This certification represents some of the highest quality standards for the aerospace and automotive industry.

Brazonics earned the certification for their compliant chemical processing procedures which demonstrate a strong emphasis on quality and continuous improvement. Brazonics specializes in thermal-management solutions including thermal design, aluminum brazing, cold-plates and heat exchangers.

“The Nadcap certification underscores Brazonics commitment to unsurpassed quality processes and their devotion to continually improving on existing practices. Brazonics is an active participant in the quality and continuous improvement council for TSI Group, and continues to take a leadership role in quality throughout our company and the industry,” states Gregory Tucker, chief executive officer of the TSI Group.

Nadcap is a leading, worldwide cooperative program of major companies designed to manage a cost effective consensus approach to special processes and products and provide continual improvement within the aerospace industry. Nadcap is PRI's brand name for the industry managed program for special processes and products in the aerospace industry.

TSI Group, Inc. is a world-class supplier of high quality contract manufactured and custom engineered electronic assemblies and thermal management products, enclosures and interconnect solutions for military, commercial and security applications.
