

FOR IMMEDIATE RELEASE

## **Woven Electronics Appoints Scott Chester Vice President of Business Development**

Simpsonville, SC, November 6, 2007 –Woven Electronics, LLC, a TSI Group company, is pleased to announce the appointment of Scott Chester as vice president of business development effective immediately.

As vice president, Scott will focus on expanding Woven Electronics' military, commercial and security customer base. As a key member of the senior management team, he will lead the entire organization's business development efforts to maximize growth potential.

E.J. Mondor, president of Woven Electronics, states, "Scott's leadership experience and success in identifying and leveraging synergies across an organization with diverse solution offerings and customers is critical as we continue to grow our business."

Scott joins Woven Electronics with over 20 years of leadership experience at fortune 1000 companies such as Raychem Corp (Tyco), Schlumberger Ltd. and eCopy. Scott was president and CEO of Tera Media Corp, where he led a growth strategy encompassing acquisition and start-ups in the United States, Canada, Brazil and the Netherlands and expanded channel partners in 50 countries. Prior to that Scott, served as director of sales at Nashua Corp, where he restructured the commercial products sales organization which led to his role as vice president of worldwide sales and marketing for Nashua Corporation. It was in that capacity where he successfully consolidated five sales and marketing divisions into one unified team.

Scott received a bachelor's degree in mechanical engineering from the University of Tennessee and an executive master of business administration from Southern Methodist University.

Woven Electronics ([www.wovenelectronics.com](http://www.wovenelectronics.com)), a TSI Group company, is the leading source for analog and digital custom-engineered, patented interconnect solutions including woven cable configurations, unique mechanical and electrical packaging, and precision fiber optic designs for mission-critical applications. Utilizing these skills sets enables Woven Electronics to safeguard the country's borders, military installations and nuclear facilities with unwavering reliability.

TSI Group, Inc. ([www.tsigroupinc.com](http://www.tsigroupinc.com)) is a world-class supplier of high quality contract manufactured and custom engineered electronic assemblies and thermal management products, enclosures and interconnect solutions for military, commercial and security applications.
